The purpose of the EMC Event will be to offer the latest information on EMC standards and EMC techniques for compliance with the standards and testing for conformity assessment to well-known national, regional, and international standards. This year's Event features the same format as last year. Curt Sponberg will be our keynote speaker during the first session. The remaining parallel presentations will cover EMC information from recognized experts in EMC engineering.

The 2017 Minnesota EMC Event should be of interest to electrical and mechanical engineers, electronic technicians, technical managers of product development efforts, quality assurance personnel, regulatory engineers and managers, and other personnel involved with design and maintenance of products having to comply with national and international EMC regulatory requirements.

TABLE-TOP EXHIBITION

Table-Top Displays (Exhibits) will be open throughout the day for participants to review EMC product and service offerings. Lunch and Coffee Breaks will also be served in the exhibits area.
